

PRODUCT SPECIFICATION

PTI-0550
DETECTOR ASSEMBLY, MODULE

REV: -

1993-Apr-15

TYPE: Sensor

- - -

Scope Of Work

To establish and produce a detector sensor assembly with 904.5nm wave length for various MILES Target Lifter Systems.

Specifications

- Designed for use with MILES related Targetry type equipment
- Detector Sensor 904.5 nm Wavelength
- Sunlight Filter
- 100% EMI Shielded
- Ruggedized design (oil/water resistance)
- Class IP67 (watertight and resistance)
- Temperature Range: Operating -20°C to +60°C, Storage -33°C to +70°C
