

ELECTRONIC CONTRACT MANUFACTURING SERVICES

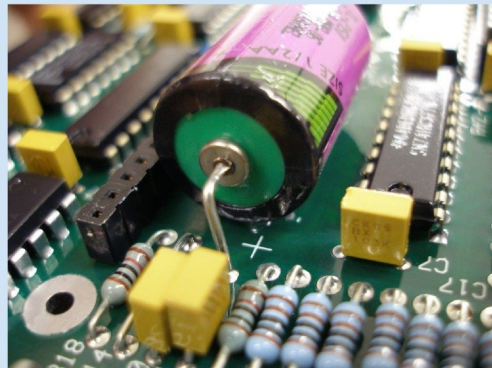

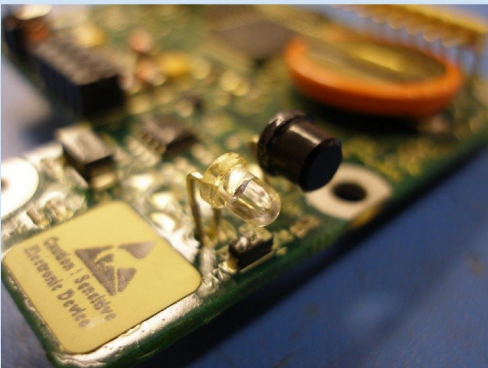

Prob-Test, Inc.
Opto Electronics Manufacturing

For over 25 years the Prob-Test team of Professionals remains focused on the fabrication and assembly of Military and Industrial Components, observing the highest standards of workmanship. Our founder is a multiple Patent holder for his ongoing expertise in the Design and Manufacturing of Opto-Electronics products.

- Cable Harness Assemblies
- Circuit Boards/Fabrication
- Consignment Manufacturing
- Kitting
- Laser Diode Assemblies
- Sensors
- Test Fixtures
- Repair Solutions

For customers with complex, diverse businesses we offer the ability to support low-volume, high mix product engineering, manufacturing, and supply chain capabilities. Flexibility of production methods, such as hand soldering of components to automated production, allows us to provide prototypes or low volume production quantities. PTI's electronics expertise ranges from pulsed laser diodes to microcircuit production. We also provide logistical and repair solutions in a low-volume, high-mix marketplace.

Let our team of Professionals work with you to develop specifications and product requirements. So we can start supplying your needs today.

“Providing a dynamic and responsive approach to client design needs, with a focus on competitive cost-modeling and dependable quality.”
