

Since 1986, Prob-Test has provided cutting edge Opto-Electronics manufacturing services to the optics and sensors industry. PTI's focus is the fabrication and assembly of military, industrial, and mechanical components and systems, built to the highest standards of workmanship. Our founder is a multiple Patent-holder for his ongoing expertise in the Design and Manufacturing of Opto-Electronics products. They include Laser Diodes, Sensors, Circuit Boards, and Cable Harness Assemblies.

PTI's Laser division focuses its product strategy on manufacturing infrared laser diode components for specialized applications. We offer Foundry Service Programs to fabricate semiconductor laser chips and assemble laser diodes based on individual customer's specifications.

- Laser Chips
- Pulsed Laser Diodes
- Fabrication
- Assembly Service

Let our team of professionals work with you to develop specifications and product requirements. So we can start supplying your needs today.

*"Providing a dynamic and responsive approach to client design needs, with a focus on competitive cost-modeling and dependable quality."*
